On the occasion of Sankranti festival, CSE & MBA Department students donated groceries and night dresses to children living in Premnivas Orphanage near Krishna Lanka. Students decided to help an orphanage with some money and collected the money in the evenings at their neighborhood places for past one week. Students decided to use the money in a meaningful way and when they approached the NSS Program Coordinator, she advised them to donate the money to orphan children. Students visited PREMNIIVAS, where 25 inmates were sheltered aged between five and 15 years. Students spend the day at the Orphanage by playing, singing, and eating together with the children who were so happy to have visitors. Students understood how a little initiative from their side could bring smiles to the faces of the children, who have not received love and affection of parents

Day 1: Awareness on “Segregation of waste into dry and wet”

Date: 29/02/2020

The event of the first day was to raise awareness to citizens about the importance of segregating waste into dry and wet. The main objective of the activity is to motivate women that segregation of dry waste and wet waste can be done from home which helps to reduce the wastage of the planet. Students had identified in the survey, that although people are aware of environmental issues, they are not giving good support to segregate dry and wet waste.

Students learned practically in the morning session about the conversion of biodegradable solid waste into safe and disposal waste materials in Solid Wealth Processing Center. From afternoon they divided into teams and went to every house to explain about the importance of segregation to women in Kanuru. Students also brought awareness on how segregation helps to reduce the effect of pollution on the environment and nature.

Shopkeepers were told, how the use of polythene bags pollutes the environment. They were also educated that polythene was not biodegradable and that, these bags could choke the sewers. They could also spoil the fertility of the soil. Shopkeepers in the locality were requested to give up the use of polythene carry-bags. People showed great interest in the campaign. Many of them promised never to use polythene bags in future. The campaign was a great success. Everyone in the locality praised the students for their good work.
